

# **International Statistics on Vacuum Technology**

**JVIA (Japan Vacuum Industry Association)**

**AVEM International (Association of Vacuum Equipment Manufacturers International)**

**EVTA (European Vacuum Technology Association)**

in co-operation with

**SEMI (Semiconductor Equipment and Materials International)**

## **INTERNATIONAL STATISTICS ON VACUUM TECHNOLOGY**

### **Agreement**

On the initiative of JVIA and its Chairman Mr. Tadao Sumi the following Associations agreed in 2001 to install an International Statistics on Vacuum Technology:

**JVIA**

Japan Vacuum Industry Association

**AVEM International**

Association of Vacuum Equipment Manufacturers International

**EVTA**

European Vacuum Technology Association

**Co-operating Association**

**SEMI**

Semiconductor Equipment Manufacturers International

### **GOAL**

*It is the common goal of the participating vacuum industry associations and their members to gather global statistics on vacuum product sales (by product for each geographic region and market segment) on a regular and frequent basis using a standardized global format. At a later date it is planned to extend the global statistics to vacuum system sales as well.*

# International Statistics on Vacuum Technology

JVIA (Japan Vacuum Industry Association)

AVEM International (Association of Vacuum Equipment Manufacturers International)

EVTA (European Vacuum Technology Association)

in co-operation with

SEMI (Semiconductor Equipment and Materials International)

## The participating associations agree:

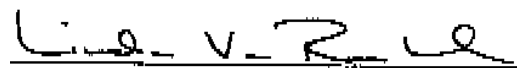

1. to support all activities to the best of one's knowledge.
2. to manage this Statistic in a proper and confidential way.
3. to respect the common Rules and Procedures (annex).
4. to consider the needs of the global vacuum industry and the member companies.
5. to start with the Statistic in 2002
6. to have not less than one meeting a year in order to discuss the further proceedings.

Tokyo, Albuquerque, Frankfurt, San Jose in April 2002
